

The graph shows a line with five vertices. The first vertex is at a low level. The second vertex is higher. The third vertex is the highest. The fourth vertex is the lowest. The fifth vertex is higher than the fourth. The x-axis is labeled with 'a', 'b', 'c', 'd', and 'e'.

The line graph illustrates the trend of the number of people in the workforce from 1990 to 2010. The x-axis represents the year, and the y-axis represents the number of people in the workforce. The graph shows a sharp increase from 1990 to 1995, followed by a sharp decline, and then a gradual increase through 2010.

The line graph shows a sharp increase in the number of people in the 18-24 age group from 2010 to 2015. The number of people in this age group rose from approximately 1.2 million in 2010 to about 1.8 million in 2015, representing a 50% increase.

Year	Percentage of people who have ever been in a romantic relationship
1975	85%
1980	85%
1990	65%
2000	75%
2015	75%

Year	Number of people in the workforce (millions)
1990	40
1995	60
2000	100
2005	95
2008	100
2009	80
2010	90

The line graph illustrates the trend of the number of people in the workforce from 1990 to 2010. The x-axis represents the year, and the y-axis represents the number of people in the workforce. The graph shows a general upward trend with some fluctuations. The number of people in the workforce starts at approximately 100 million in 1990, rises to about 120 million by 1995, dips slightly to 115 million in 2000, and then rises again to about 130 million by 2005, and finally reaches approximately 140 million by 2010.

The line graph illustrates the trend of the number of people in the labor force from 1990 to 2010. The x-axis represents the year, and the y-axis represents the number of people in the labor force. The graph shows a general upward trend, with a slight dip around 2000.

Year	Number of people in the labor force (millions)
1990	120
1995	115
2000	125
2005	130
2010	135

Year	Number of people in the workforce (millions)
1990	40
1995	60
2000	100
2005	140
2010	120

A line graph with a white background and a black border. The graph consists of two connected line segments. The first segment starts at the top-left corner and slopes downward to the right. The second segment starts at the end of the first segment and slopes upward to the right, ending at a point slightly higher than the start of the first segment.

The line graph illustrates the trend of the number of people in the workforce from 1990 to 2010. The x-axis represents the year, and the y-axis represents the number of people in the workforce. The graph shows a general upward trend, with a significant dip around 2003, followed by a recovery and a slight decline towards the end of the period.

Year	Number of people in the labor force (millions)
1990	155
1995	160
2000	125
2005	115
2010	140
